## **Dealing with an accident**

Dealing with an accident will not be easy. Nor will it be easy for you to determine how to proceed with any possible legal action, especially with more out-of-town lawyers than ever trying to market in this area.

You want a trial lawyer who will take your case seriously and personally. You may have heard stories about clients who only briefly (or never!) met the trial lawyer who was supposedly handling their case. At Liever, Hyman & Potter, we pride ourselves on the personal attention that we give each client, as well as on our record of success. Since 1959, the firm of Liever, Hyman & Potter has won thousands of awards and settlements for victims and their families - more than any other firm located in the Berks and Schuylkill County, Pennsylvania area.

Most of our clients were referred to us by people who recognize the value of dealing with professionals who concentrate in this area of law - by other law firms, by satisfied clients, and by others familiar with our record of success.

You can find more details on our website. Better yet, call our firm at 610-375-6131. We promise that you will speak with one of our four trial lawyers - not a paralegal, not a recent law school graduate, not some toll-free, long-distance law firm. You will get the answers that you seek, without any pressure or obligation.
